EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Keith Tackett on 8/17/2006.

The application has been amended as follows:

Claims 27 and 33 are amended as follows—

27. (Currently Amended) A method for dechucking a substrate comprising:
projecting a first set of lift pins to lift a perimeter of the substrate a first distance above a surface of a substrate support; then
projecting a second set of lift pins to lift a center portion of the substrate, the second set of lift pins positioned radially inwards of the first set of lift pins; and then
projecting the first set of lift pins to lift the substrate to a transfer position.
33. (Currently Amended) A method for dechucking a substrate, comprising:
contacting a plurality of a first set of lift pins by a surface prior to contacting a second set of lift pins by the surface to lift a perimeter of the substrate with the first set of lift pins and a center portion of the substrate with the second set of lift pins;
projecting the first set of lift pins a first distance above a surface of a substrate

support and; and then

projecting the second set of lift pins a second distance less than the first distance above the surface of the substrate support.

2. Claims 27-30 and 33-36 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest a method of dechucking a substrate comprising a first set of lift pins that contacts the perimeter of the substrate, then a second set of pins lifts the center of the substrate, and then the first set of pins lifts the substrate above the transfer position (above the substrate support regarding claim 33)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
